

COLLISION

...WE MAKE JACKS THAT WORK!™

MID-RISE LIFTS

48" LIFT

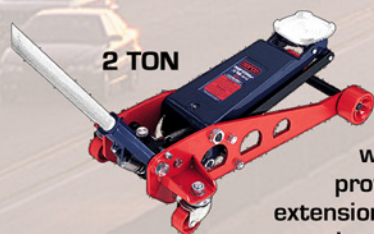

FEATURES

- Portable trolley supports the pump and maneuvers the lift from one service bay to another.
- 4-3/4" low height for easy drive on and off.
- A set of four 2-1/8" riser plates and four swivel rubber lifting pads are included.

37" Mid-Rise and Low-Rise Pit Lift Also Available

FLOOR JACKS

2 TON

FEATURES

- Fast acting pump with dual pressure seals provides maximum lift arm extension in eleven incremental pump strokes. The model 71202 not only lifts fast to the load but also lifts the load fast.
- The strongest 2 ton capacity jack chassis in the industry includes 3/8" thick side plates.

FEATURES

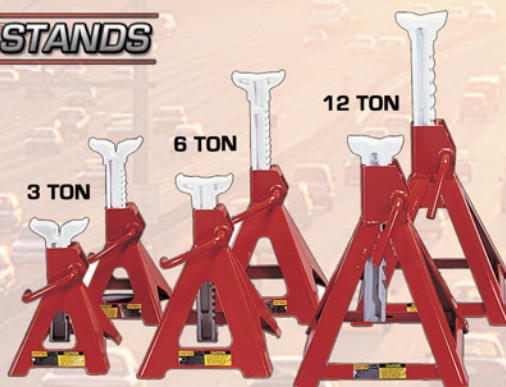

- 3-3/4" low lift height; 20" high lift height.
- Safety bypass system protects cylinder.
- Safety overload system prevents jack from being used beyond its rated capacity.
- Heavy duty chassis for added strength and dependability.

2-1/4 TON

STANDS

FEATURES

- U.S. Patent No. 5180131 spring loaded pawl provides constant locking pressure against lifting column.
- Four legged base with foot pads for added strength and a more secure footing on asphalt.

CAR DOLLY

U.S. PATENT NO. D366,547

FEATURES

- Supports a vehicle with or without tires.
- Allows FWD vehicle to be easily moved in the service bay when drive train has been removed.
- Universal design fits any car without the need for additional vehicle adapters.
