

HEAVY-DUTY

...WE MAKE JACKS THAT WORK!™

BOTTLE JACKS

CAPACITIES RANGING FROM 12 TO 50 TONS

FEATURES

- Two piece zinc plated handle.
- Prevent rust with Norco's unique "Parkerized" pump piston, ram and extension screw.
- No leak "Uniweld" construction.
- 50% safety overload factor.

30 and 50 TON CAPACITY FEATURES

- Safety overload system prevents the jack from being used beyond its rated capacity.
- Removable plug allows gauge or remote pump to be adapted to the jack.

HEAVY DUTY FLOOR JACKS

28 DIFFERENT MODELS AVAILABLE TO MEET ANY HEAVY-DUTY NEED.

FEATURES

- Safety bypass system prevents cylinder damage.
- Safety overload system prevents jack from being used beyond its rated capacity.
- Self-retracting rams.

INTENDED USE

Heavy duty truck, agricultural and heavy construction equipment. Ideal for loaded truck & trailer roadside service calls. Heavy enough for rail and bus work.

22 TON

44 TON

STANDS

FEATURES

- U.S. Patent #5180131
- Spring-loaded pawl provides constant locking pressure against lifting column for ease of use and safety.

FEATURES

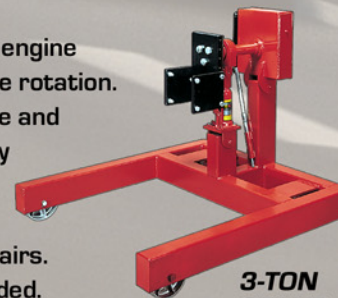

- Pin type support column adjusts to multiple height positions.

DIESEL ENGINE STANDS

FEATURES

- Mounting head tilts for engine clearance in 360 degree rotation.
- 95-to-1 worm gear drive and long handle provide easy engine rotation.
- Floor lock keeps stand from moving during repairs.
- Universal adapter included.
- Used with optional adapters.
- Not only works with Detroit Cummins, Caterpillar, International & Mack engines, but also with Allison transmissions.

3-TON STAND

TRANSMISSION JACKS

FEATURES

- Open front chassis allows for easy access to tilt knobs while fully lowered.
- Fully adjustable universal saddle with adjustable arms to position the transmission.
- Safety bypass and safety overload systems protect both the jack and user.

1 1/2 TON CAPACITY

1-Ton Under-Hoist Transmission Jacks Also Available.

WHEEL DOLLY
