

PROFESSIONAL LIFTING EQUIPMENT

WHEN SAFETY DEPENDS ON PERFORMANCE!

71340

3 Ton Capacity High/Low Floor Jack

INTENDED USE

A heavy-duty floor jack designed for a variety of automotive shop uses that has a unique combination of low and high lift heights required to handle many RV, SUV, and 1 Ton+ service trucks.

FEATURES

- 3 1/8" low and 24 3/8" maximum lift heights.
- Safety bypass and overload systems prevent cylinder damage and prevent the jack from being used beyond the ASME/PASE load-limiting standard.
- Heavy duty chassis for added strength and dependability.
- 49.875" long two-piece handle for easy shipping and storage.
- Foam handle sleeve is included to protect vehicles from damage.
- Dual pump piston design raises the jack to maximum height in 6 pump strokes.
- U-joint release mechanism for more control.

Model #	Capacity	Lift Height		Overall Dimensions		Handle Length	Weight
		Low	High	Length	Width		
71340	3 Ton	3.25"	24.375"	34.1"	14.5"	49.875"	107 lbs.
